San Juan’s Mission...

Valuing diversity and excellence, the San Juan Unified School District’s mission is to educate and inspire each student to succeed and responsibly contribute to a radically evolving world by providing innovative, rigorous, student focused instruction and programs in a safe, caring and collaborative community.

Technology Services Digital Edge
Professional Development Opportunities

Technology Services is committed to providing relevant, quality professional development for all staff of the San Juan Unified School District. We offer a variety of courses providing participants with sound application and operating system fundamentals and models of effective technology integration. Training provided by Technology Services is categorized into three levels; 100s, 200s and 300s. All courses are aligned with the San Juan District Strategic Plan and California Common Core State Standards.

100 series classes are basic skills classes and are appropriate for beginners to a specific application or topic.

200 series classes are intermediate classes that focus on specific instructional or operational uses of listed applications. Attendance at a related 100 series course or equivalent level of competency/understanding is recommended.

300 series classes are multi-day institutes or workshops that focus on investigating relevant topics and developing skills through a project-based, collaborative approach.

“Powering student learning and innovation!”
Promethean ActivInspire Module Training
Series of 1.5 hour workshops

**Description:** Learn the basics of how to use the Promethean software.
- Modules 1a & 1b - Fundamentals (PROM101)
